No.DJB/CE(Plg)W/2016/138

**Commissioner,
South Delhi Municipal Corporation
Civic Centre, Minto Road
New Delhi**

Date: 29.4.16

Sub: Regarding Issue of NOC for construction permits in Delhi for Ease of doing business.

This is in reference to the issues of NOC for construction permit in Delhi which was discussed during the Workshop held on 28.04.2016 on the "Ease of doing business". During the workshop, it was informed that NOC from DJB is required for 4 colonies namely Anand Niketan, Sukhdev Vihar, Kalyan Vihar and Vasant Vihar. Since, Delhi Jal Board is a service provider and provides water to the constructed buildings, issue of NOC from DJB for approval of plans/construction permits is not required. Water connection will be sanctioned as per Delhi Water and Tariff Metering Regulations'2012 after levy of necessary charges.

The local bodies responsible for sanctioning building plans may guide the applicant for making provisions for underground water tank for potable and non-potable use of water in the building. The availability of water is decreasing due to increase in population and resulting in gap in demand and supply. DJB is emphasising on use of recycled water for non-potable use including flushing. The individuals may be advised to incorporate dual piping in the internal plumbing arrangements for use of non-potable water in flushing in future.
